

Javad Bajelan

Back-End Developer

✉ uidopsu@gmail.com | 📍 Iran | 🌐 <https://uidops.github.io> | 📧

Summary

Passionate backend engineer with expertise in Go, Python, and C. I craft elegant solutions at the intersection of system-level programming and practical automation. My code embodies clean architecture and security-first practices. I approach problems methodically, creating software that's both powerful and accessible. Open-source enthusiast committed to building tools that make a difference.

Meshtek

Senior Back-End Developer

<https://meshtek.com.tr>

Turkey

July 2024 - March 2025

ShayTech

Backend Developer

<https://shaytech.com>

Iran

February 2024 - April 2024

Education

Azərbaycan Şahid Mədanı University

Computer Science

<https://it.azaruniv.ac.ir>

Bachelor • 18.2/20 GPA

Iran - Tabriz • September 2022 - August 2026

Projects

MSameX

a cryptocurrency exchange

<https://www.msamex.com>

TirPay

digital marketplace & credit card management

<https://app.tirpay.com>

IXNodes

vps infrastructure

<https://portal.ixnodes.com>

IXMailer

mailing system
<https://ixmailer.com/>

The Dolme Programming Language
<https://github.com/uidops/dolme>

Skills

Go (Golang) / Python / C

System-level Programming

Backend Development

Unix/Linux Environments

Algorithm Development

API Integration

Secure Coding Practices

Interests

♥ Mathematical Logic & Computation theory

♥ Deep learning

♥ Formal Verification

Awards

Programming competition at university	March 2026
First-rank
